

Build your own cretaceous ocean diorama.

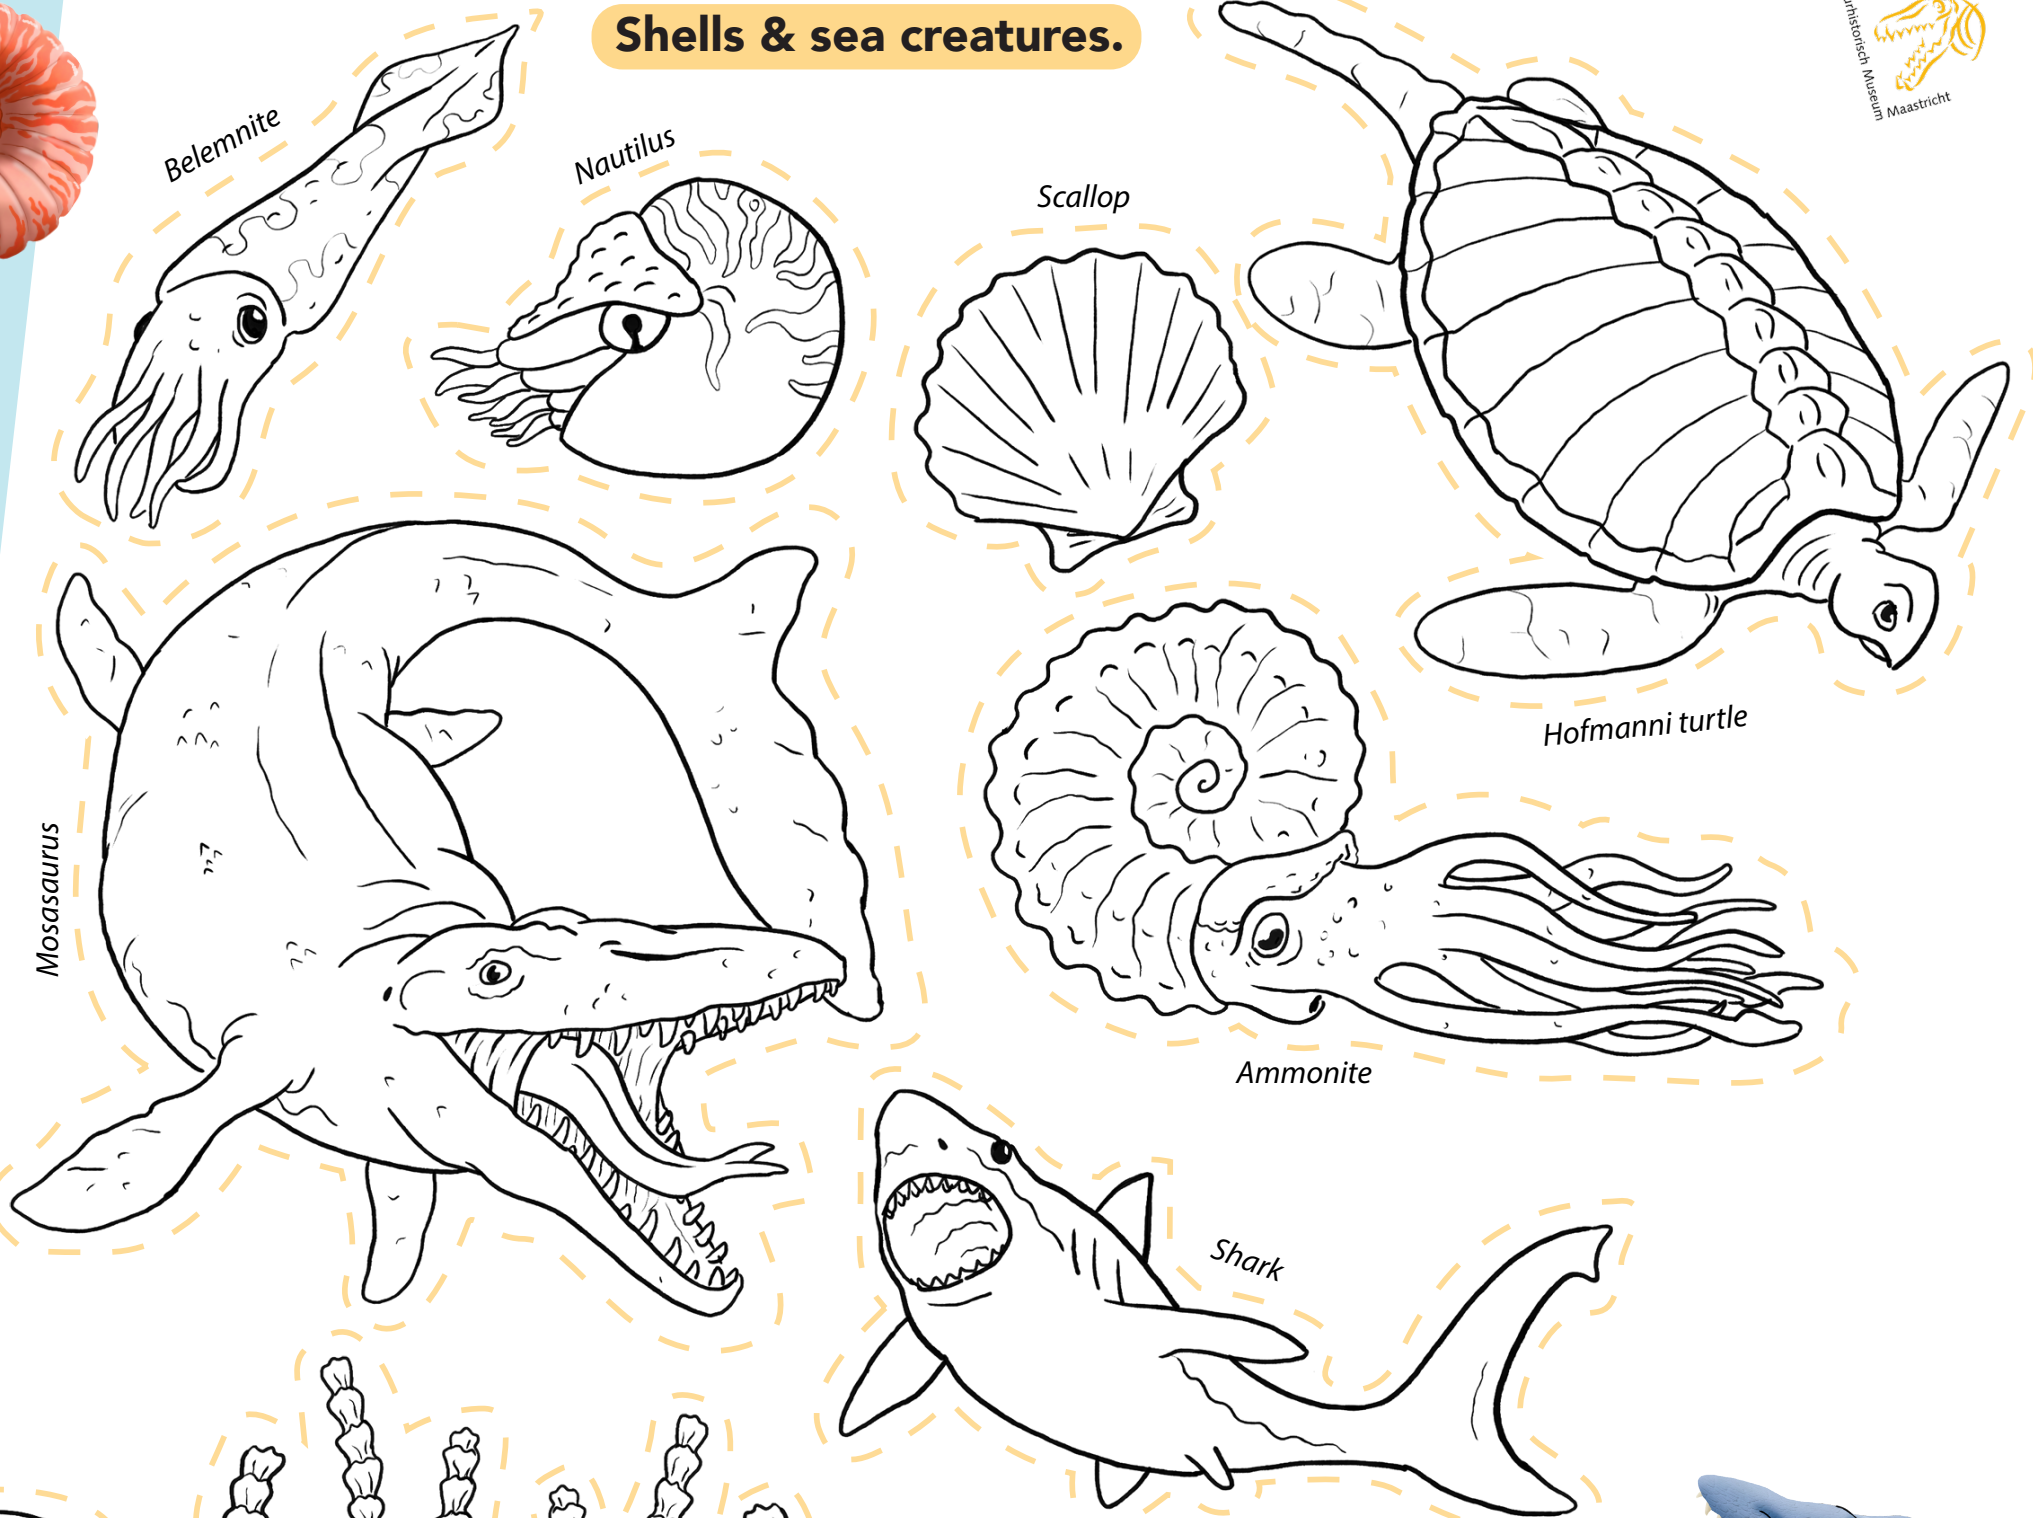

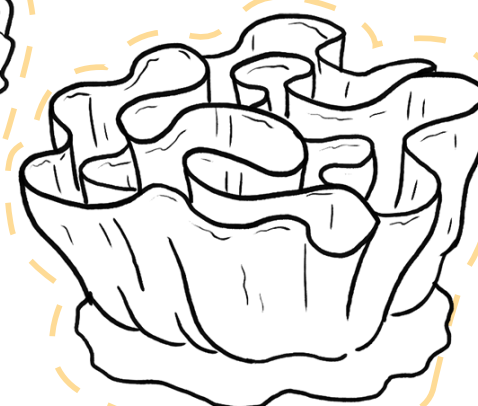

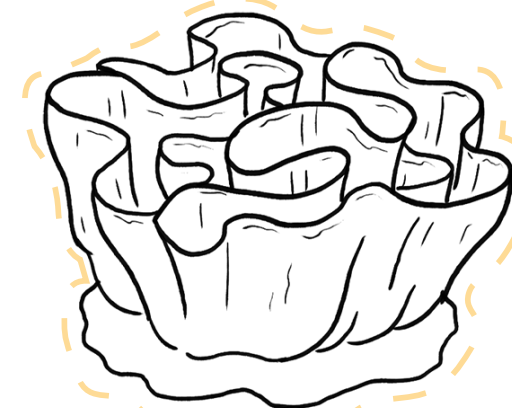

What do you need?

1. Museum DIY printed
2. A scissor
3. Some glue
4. An old shoebox
5. Coloring pencils
6. Extra decorations such as:
Coloured paper, shells, glitter.

Step by step

1. Give this sheet some
2. Cut out all sea creatures and corals from this sheet.
3. Decorate the inside of the shoe box like a real sea!
4. Glue the animals into your ocean diorama with glue.

Corals & sea plants.

Belemnite

Nautilus

Scallop

Hofmanni turtle

Ammonite

Mosasaurus

Shark
